Professional Summary

Senior Frontend Engineer with 10+ years of experience specializing in React, TypeScript, and Next.js, building scalable, performant, user-centered interfaces. Extensive track record designing Design Systems and reusable React component architecture, with complementary experience in Angular and Salesforce LWC. Delivered large-scale banking and enterprise applications for clients such as ICBC and Banco Galicia. Used to working in agile teams alongside Product, UX, and Backend, with a constant focus on performance, accessibility, and code maintainability. Active AI-assisted development workflow (GitHub Copilot, ChatGPT, Claude, Gemini) for code generation and refactoring, UI prototyping, documentation, and tests.

Experience

Senior Frontend Developer (React)

2021 — Present

Prodapt, Digital & Network Transformation

- Improved performance, accessibility, and maintainability of high-traffic React applications.
- Designed a reusable React component library aligned with a Design System shared with Angular and Salesforce LWC.
- Built React interfaces for telecom digital platforms as the team's primary stack, using TypeScript.
- Incorporated AI tools into the development workflow to accelerate coding, refactoring, and documentation.
- Collaborated directly with Product, UX, and Backend to ensure visual consistency and UI scalability.

Senior Frontend Developer (React)

2020 — 2024 · Part-time

Acciona IT / Federación Patronal

- Integrated React applications with REST APIs and backend services.
- Developed corporate web interfaces in React and TypeScript for the company's internal applications and systems.
- Implemented responsive solutions prioritizing usability and visual clarity.

Frontend Developer (React and Vue)

2019 — 2021

IEBS, Digital School

- Reduced UI bugs through improved component architecture.
- Improved user experience and accessibility in institutional applications.
- Developed educational web platforms using React as the primary framework.

Senior Frontend Developer

2015 — 2019

Accenture, Digital Interactive

- Built Design System components in React that reduced development time by ~35%.
- Developed large-scale banking and enterprise applications with React within a Scrum team.
- Delivered solutions for clients such as ICBC, Banco Galicia, and Avianca, collaborating with UX, QA, and Backend.

Senior Frontend Developer (Freelance)

2013 — 2024

BrandBox

- Improved performance and SEO in client projects by optimizing React components.
- Developed web platforms and products in React for multiple industries as an independent freelancer.
- Implemented scalable frontend solutions integrated with WordPress and WooCommerce.

Semi-Senior Frontend Developer

2012 — 2015

+54 Agencia Interactiva

- Developed websites and landing pages in React and Angular for multiple agency clients.
- Implemented responsive interfaces from Figma designs.
- Participated in UI/UX decisions and improved the mobile experience.

Skills
